EDUCATION

- B.Sc. in Software Engineering**, *Addis Ababa Science and Technology University* 09/2021 – 06/2026
Addis Ababa, Ethiopia
- Relevant Coursework: Internet Programming, Database Design, Object oriented programming(Java), Operating Systems, Mobile Computing, Computer Graphics, Embedded Systems, Artificial Intelligence and Machine learning.
 - Built applied projects in Object-Oriented Programming (Java), Computer Graphics, and Embedded Systems.
- Coding Academy (Backed by Google)**, *Africa To Silicon Valley* 01/2025 – 11/2025
Addis Ababa, Ethiopia
- Focus: Advanced training in Data Structures & Algorithms, Software Development, System Design and Technical Communication.
 - Gained hands-on experience in frontend development by building responsive UI components with Next.js and Tailwind.

PROFESSIONAL EXPERIENCE

- Frontend Developer, Intern**, *Eskalate LLC* 07/2025 – 08/2025
Addis Ababa, Ethiopia
- Led and coordinated a team of 5 front-end developers using Agile methodology, delivering production-ready platforms.
 - Developed NewsBrief, an AI-driven news summarizer delivering offline Amharic/English news briefs to 1,000+ users, improving information accessibility in low-connectivity regions.
 - Designed and implemented performant, accessible Next.js frontends with Tailwind CSS and RTK Query, optimized for reliability under limited connectivity conditions.

PROJECTS

- Smart House Rental Platform** [🔗](#), 09/2025 – 05/2026
Web-based rental platform for discovering, listing, and managing properties with secure role-based access
- Developed the backend for authentication, property management, appointments, messaging, and notification services.
 - Built and integrated RESTful APIs with JWT authentication, role-based access control, and PostgreSQL using Prisma ORM.
 - Implemented location-based property search and map integration, improving property discovery for renters.
- Sisterhood Connect** [🔗](#), *Women's tech networking platform*. 12/2025 – 12/2025
- Developed backend services featuring JWT authentication, role-based authorization, Cloudinary integration, and modular RESTful APIs.
 - Collaborated with a team to deliver a fully functional MVP under tight hackathon deadlines.
- AzSV Application Platform** [🔗](#), *Student application and review management platform*. 08/2025 – 09/2025
- Developed the frontend for a student application platform, replacing unstructured Google Docs with a scalable system used by 500+ users.
 - Implemented role-based UI for applicants, reviewers, managers, and admins, reducing submission and review time.
 - Optimized backend API integration for faster page loads, improving performance and user satisfaction.

SKILLS

Programming Languages

Python, Java, C++, PHP, SQL, Javascript, HTML/CSS

Developer Tools

Git, Github, Postman, Jira, Vs Code

Frameworks and Tool

Node.js, Express.js, Next.js, React.js, Tailwind CSS, MySQL

ACHIEVEMENTS

- Recognized on **President's List** [🔗](#) at Addis Ababa Science and Technology University for maintaining a 3.83 GPA, ranking in the top percentile of the class. 24/05/2025
- Completed the **12-session Node.js Track Course** [🔗](#) at NEJM Student Developers Association (NSDA), demonstrating commitment and practical backend skills. 07/12/2025
- Received **Certificate of Appreciation for participation in the NSDA Mini Hackathon** [🔗](#), showcasing creativity, problem-solving abilities, and teamwork under time pressure. 07/12/2025
- Solved 500+ problems on LeetCode and Codeforces — Strengthened competitive coding techniques, mastering data structures and algorithms.
